**BASSETT INC. OFFERS NEW LINE OF EQUIPMENT**

**Garden City, KS**—Bassett Inc. has been manufacturing custom made electric smokers for two years. On July 7, 2008 the owner and general manager, Dusty Cummings, added a line of cattle equipment to their offering. This will be the second generation of his family to manufacture cattle handling equipment. “Generation II Cattle Equipment” focuses on custom made hydraulic cattle squeeze chutes, but other special welding projects for the cattle industry are welcome. Located in the heart of feed yard and ranch country, their Garden City, KS location is ideal.

Bassett Inc. has a crew with over 75 years of combined experience in manufacturing, cattle handling equipment, and livestock management. They understand the demands of the livestock industry. Generation II Cattle Equipment is designed to provide cattle safety, operator ease, and the durability the industry expects.

For more information contact Bassett Inc. at 2202 West Jones Avenue in Garden City, KS at 620-275-0300.

Bassett Inc. is a manufacturing firm that produces electric smokers, ranch equipment, and feedlot equipment to an international market.
